PAS-301 - *Premium Audible System*

4 SENSORS WITH AUDIBLE ALERT

- FUNCTIONS -

- When reversing, the 4 rear sensors (in-bumper or brackets) send ultrasonic waves (4 times/second) that detect obstacles behind vehicle. The waterproof controller receives signal & transmits to speaker and Premium LCD.

- Speaker emits long intermittent beeps when objects are within 6-8 feet from vehicle. As vehicle moves closer to obstacle, the beep increases in frequency. When vehicle is 1 foot away or closer from obstacle, the speaker emits a continuous sound.

- Power is supplied by tapping into reverse lights.

- INCLUDED IN PACKAGE -

Four 22 mm sensors (8 foot sensor cable), 4 sensor brackets, Speaker (33 foot cable), waterproof controller, drill bit, and owners man./installation instructions
